PISOS E REVESTIMENTOS

Para quem procura renovar o ambiente de forma moderna, os revestimentos cimentícios tornaram-se uma ótima opção.

Por serem produtos feitos a partir do concreto, podem ser usados no acabamento de pisos ou paredes em áreas externas, fachadas e ambientes internos.

O revestimento cimentício se tornou muito importante no mercado por sua praticidade, sustentabilidade, Beleza e versatilidade. Produz efeitos incríveis quando expostos a uma iluminação que saliente suas formas tridimensionais.

Branco (natural)

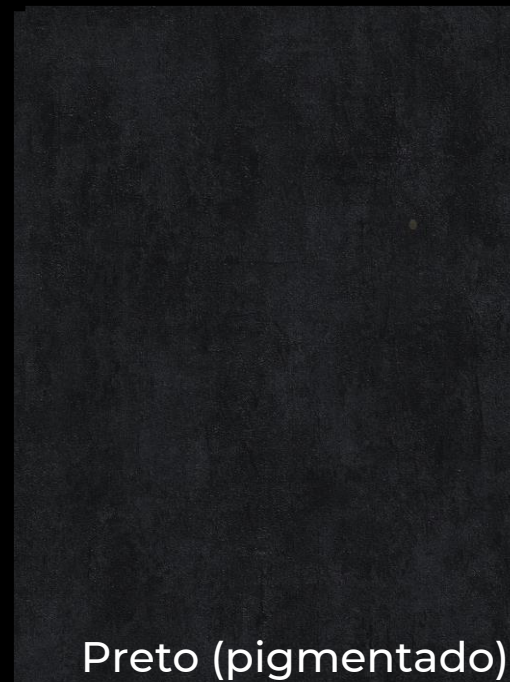

Cinza (natural)

Chumbo (pigmentado)

O material utilizado para a fabricação dos revestimentos aceita a pintura em todas as tonalidades.

Sugerimos que seja feita após a instalação e seguida de uma camada de hidrofugante que irá garantir uma maior durabilidade.

Preto (pigmentado)

“A arquitetura
é o jogo
sábio, correto
e magnífico
dos volumes
dispostos sob
a LUZ.”

Le Corbusier
